Alex Marshall

Durham, NH | 815.980.2594 | alexmarshall216@gmail.com

EDUCATION

University of New Hampshire, Durham, NH Anticipated Graduation: **May 2028**
Bachelor of Science in Marine, Estuarine, and Freshwater Biology
GPA: **3.9**

- **Trustee's Scholarship**
- **Dean's List, Highest Honors, Fall 2024, Spring and Fall 2025**

Coursework: Honors Introductory Biology: Evolution, Biodiversity and Ecology with Lab, Honors Contemporary Conservation Issues, Ecology, Honors Introductory Biology: Molecular and Cellular, Introduction to Marine Biology, Organic Chemistry

SKILLS AND CERTIFICATIONS

Field Skills: Species identification; quadrat and transect sampling; data recording; use of field guides; use of pH/temperature probe; use of PAR sensor; mist net handling; bird extraction

Lab Skills: Report writing; maintain detailed lab notebook; gel electrophoresis; density separation; PCR; DNA extraction, microscopy, thin layer chromatography

RESEARCH EXPERIENCE

UNH Coastal Restoration and Resiliency Lab, Durham, NH **2025-Present**
Undergraduate Researcher

- Filtered and sorted coastal sediment samples as part of microplastics research
- Processed bog sediment cores through homogenization, organic digestion, and density separation to examine microplastic content through a microscope
- Collaborated on poster *Are Microplastics Ubiquitous in Freshwater Wetlands* for the April 26th, 2025 UNH Undergraduate Research Conference

Rockford University Bird Banding Project, Rockford, IL **August-November 2021-2023**
Volunteer

- Set up mist nets once a week in the forest, maintaining them during workdays by removing debris, disentangling roughly 20 birds an hour, and deterring predators
- Recorded data, including weight, tarsus, wing length, sex, and approximate age, on roughly 20 birds a week, from a variety of songbird species
- Worked with other members of the project to efficiently remove birds in the least amount of time possible, while avoiding deterring other birds from entering the mist nets

WORK EXPERIENCE

Community Foundation of Northern Illinois Internship, Rockford, IL Summer **2025**
Intern

- Coordinated outreach to underserved communities within the service area
- Conducted archival interviews with donors

- Supported youth program engaging local teenagers with philanthropy

Severson Dells Nature Center, Rockford, IL **Summer 2023 – 2024**
Summer Camp Staff

- Assisted with camp preparation and childcare in a nature-based education setting
- Developed knowledge of Illinois forest and prairie ecology
- Maintained garden and natural playground through weeding

CONFERENCE PRESENTATIONS AND POSTERS

Franzoni, C., Marshall, A., Wilkins, L., Ciampitti, R., Jarrett, G., and G. Moore. (2025) Are Microplastics Ubiquitous in Freshwater Wetlands? Examination of Peat Deposits in a Remote Atlantic White Cedar Bog in Bradford, NH. Undergraduate Research Conference, 26 April 2025, University of New Hampshire, Durham, NH

CAMPUS ACTIVITIES

New Hampshire Youth Movement, Durham, NH **2025-Present**
Volunteer

- Helped to plan campaigns to improve student life on campus
- Attended rallies at the state capital to generate support for university funding
- Spread awareness on campus of youth issues

University of New Hampshire Campus Democrats, Durham, NH **August 2024-Present**
Volunteer

- Participated in activities like canvassing and phone banking to encourage voting and gauge support for Democratic candidates
- Attended weekly meetings to discuss the state of politics in New Hampshire
